In the superior court at New London, Friday, with Judge Joseph P. Tuttle on the bench, James Coady of Baltic was granted a divorce from his wife. Elia alias Etta Coady of parts unknown on the grounds of desertion. They were married May 30, 1905 both having been once before married, the petitioner's first wife dying and the defendant having been divorced from her first husband. They were living in Durand, Wis. When the separation came, Mrs. Coady leaving her husband because she said there was too much work in keeping his house and farm. He said that he always provided a good home and he gave her no cause. He saw her last four years ago while he was on a visit in Durand.

Davis testified that he had lived in Fishers Island, Groton and Noank at various times in following out his business of fisherman and boatman. The separation came in 1910 in Groton when Davis said he was compelled to move to Noank on account of his work and his wife refused to go there and went to her home where she now is.

Judge Tuttle heard the divorce care of Annie Allen Latham of New London Davis said he was compelled to move to hond against James D. Latham of parts unknown. Mrs. Latham sought separation on the grounds of habitual intemperance.

Then he got into bad company and began to drink and for the next 20 years he was habitually intoxicated and abused her. He would go on sprees varying from a few days to weeks and then he would come and strike and abuse her and one time he threatened to kill her. After he recovered from each drunk, however, he always promised to reform but he would do the same thing again in a few days.

Two years ago he left home saying that he was going to work for The

that he was going to work for The Chappell Co., and he has not been heard or seen since then. Mrs. La-Chappell Co., and he has not been heard or seen since then. Mrs. Latham learned that he did not go to work for The Chappell Co. Mrs. Latham said that during three years prior to his disappearance her huzband was arrested twice on her complaint because he was intoxicated and came home and smashed the furniture and he was frequently arrested.

Wdiows' Exemption. Unfavorable report came from the committee on finance to exempt from taxation property to the amount of \$1,000 of every widow resident in the state of an yperson who served in the army, navy, marine corps or revenue service in the United States in time of war and was honorably discharged.

No Knights Exemption. The finance committee made unfa-vorable report to exempt from taxa-tion property of the Knights of Co-tumbus in Bridgeport.

After a brief session, on motion of Mr. Peasley, the house adjourned to next Tuesday morning at 11.30.

Home Guard Probable. It was rumored at the capitol, Friday, that the military committee had in preparation a bill providing for the formation of a state gsard, in no way connected with the national guard, that could be depended upon for home guard duty in the event of emergency.

Munition Plants. The military committee is also considering a measure that would give the governor, in the name of the state, to take ever the munition plants of the state, and to operate same by a commission, composed of manufactur-

Another measure that is receiving the attention of the military committee, is to have the manufacturers take a census of their employes, designating them in three classes, those who were essential to the operation of the plant, those who could be spared in an emergency, and in the third class those who could be spared without serious detriment to the plants.

ON INTERESTING TOPIC. Rev. H. E. Starr Spoke on Poetry as Factor in Education and Character

Thursday evening Rev. Harris E. Starr of the Pilgrim Congregational church, New Haven, spoke to the people of Storrs on the subject of Poetry as a Factor in Education and Character Building. This is the first of a number of such lectures to be held at Storrs. Mr. Harris, who was the college pastor about 15 years ago, prefaced his remarks with a number of reminiscences of college life before the

day the committee in charge of the directing of the canvass in the military census to be taken in this city were able to announce the second list of names of canvassers for the city and town. F. B. Ricketson, chairman of the committee worked until 7 o'clock Friday evening perfecting this list which he mailed immediately afterwards to Hartford in order that the commissions and badges may be sent here as soon as possible. Mr. Ricketson and his able corps of assistants put in their hardest day of the census on Friday and although marked progress has been accomplished there still remains much to be done before the committee's labors will be over. The His lecture dwelt largely upon the effect unconsciously produced by a study of good poetry, especially during the adolescent stage. It was freely the adolescent stage. It was freely illustrated by readings from a number of the better poets and brought out clearly the fact that poetry takes hold upon children, although we may not realize it at all at the moment the

remains much to be done before the committee's labors will be over. The list announced at 7 o'clock last night by Mr. Ricketson follows:

It is the plan of the college com munity to continue these suppers at intervals and to have as a guest of honor a man of ability who will com-plete the evening by a talk upon some subject of interest and value. ton, Claude Combies, Kenneth Botham, Cresswell Coleman, Charles Hadden, Norman Himes, Howard Ives, George Wallen, Louis Cadish, Louis Sobel, Allyn Brown, Frederick Metzger, Gerald Brassill, Gerald Dingvan, Thomas Sales, Charles Tirrell, Victor Davis Samuel Armitage Archie Torrens

In this era of high prices the house-holder is outraged by many demands, but by none more than the cost—to him—of salt mackerel and potatoes, which used to make the foundation of Friday's dinner, and a very satisfactory breakfast at any time. Mackerel are 25 cents a pound. There are plenty of them in the ocean and plenty of fishermen glad to catch them for five cents. Potatoes are 75 cents a peck. Aroostook county, Maine, can raise potatoes enough to supply New England. It is no trick to get 150 bushels an acre, and the farmers grow rich if they receive 50 cents a bushel. Who gets the difference, and why? Must we come to the German way of taking the crop and distributing it by force? As Artemus Ward used to say. "Why is this thus and if so, what is the meaning of this thusness?"—Hartford Times.
